Re: NWS Earle Technical Review Committee

Dear Mr. Sheckels:

I have received your letter dated February 12, 1988. Thank you for inviting me to be part of the NWS Earle Technical Review Committee (TRC). My experience with TRC's at other Military Installations has convinced me that they can be a very informative and productive forum. I am looking forward to working together with the other TRC's members at Earle.

I have one request. I would like for the NJDEP Geologist and the Technical Coordinator to also be regular meeting attendees. They are my main sources of technical input. Their presence at the proposed meetings will be beneficial in expediting the resolutions of technically based decisions.

Should you need to contact me please call (609) 633-0701.

Sincerely,

Joseph Malazinsky
